

ICO-Air Your savings on compressed air

Icopower designed an efficiency system capable of **drastically reduce energy costs** for all manufacturing environments which work using **compressed air**

Performance and guaranteed savings

Icopower and ICO-Air solution **guarantee the efficiency result** throughout a **proper refund agreement if the goal is not achieved.**

Power consumption and efficiency

In your production process more than 50% of the energy is consumed for the production of compressed air.

The ICO-Air system controls and works on inefficiency of compressed air distribution without acting directly on your compressor.

Reducing the activity of your compressor (10-40%), **ICO-Air allows you to save your money**

Sale or service

The supply of the product is possible with two solutions:

- rent
- purchase
